

For Sale

MG MGB/GT

1978 model in Leyland white, it has been my everyday car for over nine years and has only broken down once and that was on the way home from the previous owner's house! – Fuel pump became intermittent.

Extensive body work repairs about 11 years ago by previous owner.

Engine professionally rebuilt in 2010 to include lightened flywheel, unleaded head, C-AHT-714 cam fitted, raised compression ratio and K and N air filters. Electronic ignition installed. Front suspension powder coated and including 11/16 inch anti-roll bar. 5 1/2 J minilite style wheels. Caster angle reduced (lighter steering).

Interior clean and good with leather seat covers.

MOT til October 2017. At present on SORN but insured.

This car is being replaced as I find the steering too heavy for my advancing years. £2250 or sensible offer.

A spare tail gate and bonnet (both in green) are also available if required.

Phone Peter Haynes on 07890943489 or 01293 883224 (leave message on either if no reply).
