The Teenager Challenge

The Teenager Challenge provides an opportunity for young people aged 14 to 17 to enjoy a variety of activities using the family MG with parents or grandparents. It includes a mix of challenges from driving in an AutoSOLO/Autotest to knowledge of MG cars.

The Challenge includes three aspects, namely:

- 1 Driving in an AutoSOLO or Autotest – These are timed driving tests around a coned route. The entrant would drive the route accompanied by a parent or grandparent holding a Road Traffic Act driving licence. The entrant would need to demonstrate that the car can be driven safely. Routes are laid out in compliance with Motorsport UK rules and arranged to prevent excessive speeds being driven. There is a video on the MGCC SE Centre YouTube channel of a previous AutoSOLO.
- 2 Road Route Navigation – This challenge will comprise plotting a route on an OS Landranger map with the route visiting a number of points on the map. This is followed by acting as the navigator and directing the driver to drive the course. Completing the challenge is demonstrated by a photograph of the start and finish of the run.
- 3 MG Knowledge – This challenge will comprise of a quiz that covers various aspects of MG cars and history. This can be done at home and emailed to the organisers.

The Young person will need to be either an MGCC Young member (available from age 16) or covered by family membership. Challenge entry should be supported by parents or family particularly for the driving events and use of a car.

The SE Centre will provide free entry to either the AutoSOLO or Autotest i.e. waiving the event entry fee. There will be a prize for any young person completing the Challenge and providing supporting information.

Challenge entry or further information can be obtained from John Morgan by emailing competitions@mgcse.co.uk or phone 07802 770025. Information also on MGCC SE Centre website <https://www.mgcse.co.uk/>
